

OLIVER STASKIEWICZ

web/mobile project owner

Tech-savvy and creative professional with a strong background in **web development**, cross-functional collaboration, and **agile** workflows.

Experienced in bridging the gap between technical teams and business needs, with a focus on **problem-solving**, **product quality**, and **user experience**.

Now looking to grow within a product-focused role where I can contribute to the evolution of digital solutions and work closely with development teams, designers and stakeholders.

EXPERIENCE

Technical Webmaster - Loterie Nationale, Bruxelles 2023 - Present

- Supporting an Agile (Scrum) AEM-based web project by ensuring website performance and stability
- Creating and managing technical tasks and bug reports in Azure DevOps
- Monitoring site health and communicating technical issues to relevant teams
- Collaborating with developers, testers, and business teams to ensure smooth feature delivery

Mobile App project - OneCard (Personal Project) 2022

- Designed and developed a mobile app for digital business cards*
- Created wireframes and functional specs, coordinated the technical execution
- Used React Native and modern UI kits for development

Sound-Engineer, Paris Freelance 2018 to Present

- Composed and produced music and sound design for web, TV, and social platforms
- Worked with agencies and creative teams to deliver high-quality audio projects

EDUCATION HISTORY

RNCP VI - Web & Mobile Development **Project Manager** **La Capsule - Bruxelles** 2022

Digital Arts **Ecole de Recherche Graphique - Bruxelles** 2021

Bachelor Cinema Arts & Medias **Université Sorbonne Nouvelle - Paris** 2017

Creativity, team spirit, **communication**, stress management, **adaptability**

LANGUAGES

French (native), English (fluent)

BEYOND TECH

- Cooking (barbacoa beef, neapolitan pizza, alfredo's pasta)
- Surfing/Skateboard
- Producing music (French Touch, Movie Soundtrack)
- The Office US expert

Listen to my songs on Spotify !

Web and mobile developer, I use technologies such as Javascript, React, React Native, TypeScript and more.

I am passionate about team-work and innovative projects, with an artistic and creative dimension in addition to the tech from my experience in the sound and music industry. I am now looking for a project that can combine both worlds and put my skills into action and continue learning in a challenging environment.

Certified in web and mobile project management, I specialize in using Agile Scrum methodologies alongside technologies such as JavaScript, React, and AEM to deliver efficient and innovative solutions

EXPERIENCE

Mobile App project - OneCard

Creating a mobile application for digital business cards

2022

Creating jingles, mixing soundtracks for web and tv diffusion.

Composition of music for different formats (snapchat, web, tv). Recording on set or in studio

Sound-Engineer

Freelance

2017 to Present

I worked in different studios for different brand such as Nintendo, Momkai, Adidas by recording, editing and mixing audio.
